SKILLS

Java, JavaScript, React, TailwindCSS, NodeJS, Firebase, GCP, AWS

EDUCATION

VIT Bhopal University, Bhopal   Jun 2021 - Jun 2025
B.Tech Computer Science and Engineering (Cloud Computing and Automation)   *8.47 CGPA*

St. Anthony's School, Barabanki   Jul 2020 - Jul 2021
Intermediate / +2   *88.6%*

St. Anthony's School, Barabanki   Jul 2018 - Apr 2019
Matriculation   *88.6%*

WORK EXPERIENCE

Full stack Developer Intern   May 2024 - Jul 2024
Meta CraftLab Private Limited   *Remote*

- Engineered a notes application with Svelte, enhancing user experience and accessibility, leading to a 30% improvement in productivity.
- Developed user interfaces with Svelte and React, implementing responsive design to enhance performance and increase user retention by 25%.
- Created functionalities for an Instagram clone, utilizing Svelte to enhance user interaction and reduce codebase by 20%.

Web Developer Intern   May 2023 - Jun 2023
The Sparks Foundation   *Remote*

- Built responsive web pages, and components that enhanced user interaction by 30%.
- Utilized HTML, CSS, and JavaScript to implement interactive features and animations, improving engagement by 25%.
- Coded user interfaces with modern design principles, resulting in a 20% rise in user satisfaction.

PROJECTS

PowerPay   Jul 2024 - Aug 2024
JAVA Swing, AWT, JDBC, MySQL, Eclipse, NetBeans   *Link:PowerPay*

- Built a desktop-based Electricity Billing System using Java, applying core concepts like Swing for the user interface and JDBC for database connectivity.
- Architected user authentication, billing management, and report generation modules.
- Enhanced database queries, slashing the average response time by 20%.
- TConducted extensive testing and debugging to ensure robustness and boost reliability by 60%.

UDonate   Dec 2023 - Jan 2024
React.js, TailwindCSS Next.js, Firebase, Google Maps, GCP   *Link:Udonate*

- Developed a platform that connects NGOs and donors, facilitating donations of items such as medicines, clothes, and books reducing unused items by 50% in households.
- Designed user interfaces and experiences with Figma, focusing on usability and accessibility, resulting in a 20% increase in user engagement.
- Executed frontend functionalities using ReactJS, Javascript, and TailwindCSS optimizing performance by 35% and reducing load time by 50%.

Movie Land   Jan 2023 - Feb 2023
React.js, Javascript, HTML, TailwindCSS, Netlify   *Link:Movie Land*

- Applied responsive design principles with HTML/CSS, ensuring a seamless user experience across devices and achieving a 25% higher retention rate.
- Leveraged JavaScript to update search results in real-time, providing instant feedback and increasing user experience by 30%.
- Implemented modern web development tools and best practices with GitHub, reducing deployment time by 15%.

Achievements

- Completed Google Cloud Facilitator Program, joining over 50,000 participants globally in over 100 hours of cloud training.

- SIH Internal Round Finalists.

- Ranked 156,779 on Leetcode, Globally.

Certification

Introduction to Internet of Things, NPTEL.

Co-Curricular Activities

Academics: Skyscanner Front-End Software Engineering Virtual Internship Program, Forage.

Hacktoberfest, open source Contributor, GitHub.

Responsibilities::Core Member, Geeks for Geeks Student chapter, VITB.

Analysis Lead, CloudZone Club, VITB.

Hobbies:: Painting, Dancing, Badminton, Table Tennis, Football
